If any dealer wants to praise a particular brand of flour, he says:

"Why this is as good as Roller Champion."

ROLLER CHAMPION

is the standard by which other flours are measured—to be as good as Roller Champion is the aspiration if not the realization of flour manufacturers. Ask your grocer what he thinks of Roller Champion, and depend upon his advice, and try it.

BREADS.

Salt Rising Bread.

Two-thirds coffee cup of fine meal, two-thirds coffee cup of fresh milk brought to a scalding heat, stir in meal, making a thick mush. If meal does not ferment quickly stir in a quarter of a teaspoonful of thick molasses. Cover closely and set in a warm place over night. In the morning take a coffee cup of fresh milk, add to it enough boiling water to make it quite warm, put in a teaspoonful of brown sugar or molasses and one-fourth teaspoon of salt. Stir in enough flour to make a very thick batter, stir thoroughly, then add the mush that has risen over night, stir in lightly. Cover closely, put in warm place to rise. When light, mix with the flour, using warm water, and make bread.

It is essential to have everything warm.—Mrs. T. O. Smith.

Corn Pone.

Take one quart of meal, pour boiling water over half of it and then cold water, to make a dough that is easily made into pones. Have oven very hot and bake.—Mrs. E. J. Rogan.

Pop Overs.

One cup flour, one salt spoon of salt, beat one egg thoroughly, add one cup sweet milk to the beaten egg. Then add the wet ingredients to the dry and beat thoroughly. Cook in hot "gem pans" (or muffin rings) in a quick oven.—Mrs. R. Pearson.

French Biscuit.

Six eggs, one pound sugar, three-fourths pound flour, flavor to taste, drop on buttered toast. Sift powdered sugar on them, then bake.—Mrs. T. O. Smith.

Tyler Grocery Company

2025 Morris Ave.

Whenever you think of fancy groceries or canned goods, we want you to think of Tyler—Tyler Grocery Company, carries not only one one of the largest lines, but there is a uniform quality about everything they handle that quickly appeals to the housekeeper who is careful to see that in this day of adulteration, nothing in the way of impure and chemical preserved canned goods are used, in her home at least.

Rice Muffins.

Take the yolks of two eggs, half a cup of sugar and a piece of butter about the size of an egg, beat until very light, mix with it one cup of boiled rice, two cups of sifted flour, half cup sweet milk and a half teaspoonful of Royal baking powder. Beat the whites of egg separate and add to the mush. Fill in muffin rings and bake.—Mrs. H. Lowenthal.

Muffins.

Put one teaspoon sugar and half a teaspoon of salt into a dish, then break in one egg and half a pint of flour in which you have mixed one large teaspoon of Royal baking powder. Stir this together, then add enough milk to make rather a thick batter. Add one tablespoonful of melted butter. Bake in hot oven fifteen or twenty minutes.—Mrs. J. Bandman.

Biscuit.

Into one quart of flour put one heaping teaspoon of Royal baking powder, one-fourth of a teaspoon of baking soda and one small teaspoonful of salt. Sift all these together. Add one large kitchen spoon of lard or butter, cut the butter into the flour with a knife, then add butter milk, working it into the flour until you have it to a right consistency to roll out. Cut with a biscuit cutter. Bake in a hot oven.—Mrs. J. Bandman.

Butter Milk Yeast Bake.

Take one yeast cake, add to two glasses of butter milk, one teaspoonful of sugar, one-half teaspoonful of salt, and thicken with cornmeal. Let rise four hours and make out in cakes.—Mrs. Montgomery.

Bread.

One yeast cake to one pint of warm water, one tablespoonful of sugar, thicken with flour to a stiff batter. Let rise four hours, then season with sugar, lard, salt. Let rise two hours and bake. Can let rise the second time, if prefer, before baking. Mrs. Montgomery.

Extra Cream Muffins.

Cream three level teaspoonfuls of butter, add to it two tablespoonfuls of sugar, separate two eggs, beat the whites and add them to the yolks, unbeaten. To the butter and sugar add one cup of sweet milk, one-half teaspoonful of salt, two cups of flour and four teaspoonfuls of Royal baking powder. Then add the eggs. Bake in greased warm pans twenty minutes. These are fine.—Mrs. W. E. Montgomery.

Cheese Straws.

Take one-quarter of a pound of puff paste and half an ounce of Parmesan cheese grated very fine, add a little salt. Sprinkle the cheese and salt over the paste and roll it two or three times, then cut into narrow strips about five inches long. Bake in a slow oven and send to the table hot.—Mrs. L. K. Steiner.

Cheese Straws.

One cup full of dry, highly flavored grated cheese, cayenne pepper to taste, and a scant half cupful (teacup) of half butter and half nice, sweet lard rubbed carefully into a teacupful of sifted flour. Now have ready quarter of a cupful of ice water, pour only half of this into the center of the flour and begin to stir with a fork. Use more water if necessary, but form the dough with as little wetting as possible, for upon this depends the success of the straws. Roll out to wafer-like thinness, and cut into finger length strips, form into twist. If to be baked at once a small teaspoonful of Royal baking powder should be sifted in the flour, but if put on the ice and baked just before serving, the powder should be omitted. Serve with freshly mixed mustard.—Mrs. W. O. Strauss.

General Mahones Recipe for the Best Waffles I Ever Ate.

When skinned, put in parsley, celery, a little onion or leeks, chopped fine, two large spoons of tomatoes and two large spoons of barley, salt to taste. Let this boil for three or four hours. It will then be ready for use.—Mrs. I. Hochstadler.

Beef Tea For the Sick.

Chop fine four pounds of beef, removing all fat. Let the beef be best quality. Place the meat in a bowl and pour over one teacup of cold water to each pound of meat and let it stand three hours to extract the juice, then boil the whole for one hour, after which strain and press out all of the juice.

Tomato Soup.

Put into a stew pan one quart can of tomatoes and a pint of water. In a frying pan put one large tablespoonful of butter and when hot add one large onion cut into small pieces. When onion is brown, put in a large tablespoonful of flour and to this add the tomatoes and let come to a boil. Season with a teaspoonful of sugar, one of salt and one of pepper and add about four pepper cones and let all boil for twenty minutes. Strain through a fine sieve and serve with bread cut into dice, fried a crisp brown.—Mrs. Morris Marx.

Cream of Celery Soup.

One quart chicken or veal broth; one quart milk; one-half cupful rice; one teaspoonful salt; one head celery; seasoning. Use for this soup a quart of chicken or veal broth and about a quart of milk; pick over and wash the rice; rinse it well in cold water, and put it in a thick saucepan over the fire, with a pint of milk and a teaspoonful of salt; wash a head of celery and grate.

Force Meat Balls For Soup.

Take cold fresh meat or chicken, chop very fine; add flour enough to make it stick together in balls about the size of a marble. Roll in flour, and fry in Cottolene until brown. Add to soup just before serving.—Miss Wister.

Bisque of Oysters.

Fifty oysters; one pint stock; one teaspoonful onion juice; two tablespoonfuls corn starch; one pint hot cream or milk; two scant tablespoonfuls Cottolene; seasoning. Put the oysters on to boil in their own liquor, boil two minutes, drain, saving the liquor. Chop the oyster very fine, and press it through a sieve, add to it the oyster liquor, return it to the kettle; add the stock, onion juice, and a bay leaf. Simmer gently for five minutes. Moisten two even tablespoonfuls of corn starch in a little cold water, stir into the soup, stir until it thickens, add the hot cream or milk, and a palatable seasoning of salt and pepper. Do not boil after adding the milk, or the bisque will curdle. Bisque of clams may be made precisely in the same way.—Mrs. Rorer.

Consomme.

Four pounds of beef; one ounce suet; one small onion; three quarts cold water; four cloves; one small carrot; a piece of celery; one egg white. Cut into dice four pounds of lean beef from the round; put about one ounce of suet and one small onion, sliced, into the soup-kettle and cook until a good brown; then add the meat, cook without covering thirty minutes; add the cold water, cover the kettle and simmer gently for about

three hours; at the end of this time add the cloves, carrot, a piece of celery, and simmer one hour longer. Strain and stand away to cool. When cold, remove all grease from the surface. Turn the consomme into a kettle; beat the white of an egg with a half-cupful of cold water, add it to the boiling consomme, boil one minute and strain through cheese-cloth. Season, and it is ready to serve. If not dark, add a teaspoonful of caramel.

Crab Gumbo.

One dozen hard shell crabs, one onion, six large fresh tomatoes, two pints of okra, one-half pod red pepper, one bay leaf, one sprig of parsley, one tablespoonful of lard; salt and cayenne pepper to taste. Put the lard in the pot and when hot throw in the bodies and claws of the crabs. Cover closely, and after five or ten minutes add the skinned tomatoes, chopped onions and parsley, stirring occasionally to prevent scorching. After five minutes add the okra, sliced fine, and when well browned without the semblance of scorching all the bay leaf, and juice of tomatoes. Pour over about two quarts and a half of boiling water, and set back on stove and let simmer well for an hour, having thrown in the pepper pod. When nearly ready to serve season according to taste with cayenne and salt. Pour into the tureen and serve with boiled rice and McIlhenny's tobasco sauce.—Mrs. J. Wilzen.

It will be still better if an egg is beaten light and the boiling soup poured upon this just before it goes to table. A still further improvement is the additio nof a teaspoonful of whipped cream to the top of each cupful of the broth.—Mrs. [illegible] Caheen.

Gumbo Fill.

Heat the soup pot; put in a tablespoonful of lard and after it is hot put in two cooked onions, and fry to a light brown. Add a chicken cut in pieces and also fry to a light brown. Add parsley, celery, bay leaves, little ham cut in dice a little mace, cloves, pepper (cayenne), a few drops of McIlhenny's tobasco sauce, then add as much water as you need for the soup, and let all cook together for two hours. When you are ready to serve, put in as many oysters as you require, and fill till it ropes. Serve immediately with rice, and never cover the tureen, as it turns the gumbo thin.—Mrs. Geo. H. Clark.

Cream Tomato Soup.

One quart can tomatoes, put in a sauce pan with a little more than the empty can of water. After getting hot add one teaspoon soda, and let boil until the tomatoes are soft. Then add one tablespoon butter, few drops of McIlhenny's tobasco sauce, and one pint of milk and let boil a short time, then strain on powdered crackers, and season to taste.—Mrs. A. Y. Jones.

Chestnut Puree.

This is a perfect and desirable soup and is very appropriate if used in the form of a sauce to accompany white entrees, especially of turkey. A brown puree of chestnuts is delicious. To produce this the nuts must be carefully roasted in order to caramelize them. For a white puree, remove the shells from the chestnuts, cover with hot water and boil ten minutes, then remove the brown skins. Cover the chestnuts with boiling salted water and cook until they are tender; then drain, mash and rub through a sieve. Season to taste with salt and pepper and add sufficient hot milk, or half milk and half cream, or a good rich stock to make a soup of creamy consistency. Serve very hot.

Crab Soup.

Mix the yolks of two hard boiled eggs with a little salt, and mustard, one tablespoon of butter and flour. Put in one quart of milk and boil. Add a few cloves and whole pepper, also the above ingredients with white of the egg cut up fine. When all begins to boil add one can of crab meat and let it boil up one hour over sliced lemon and add dash of McIlhenny's tobasco sauce in the tureen. Fresh crab may be used instead of canned.—Mrs. Louis Saks.

Fish Cutlets

Half-pint milk, three teaspoonfuls Cottolene, three even tablespoonfuls flour, one egg yelk, one tablespoonful parsley, chopped, one-quarter grated nutmeg, ten drops onion juice, two cups of cold boiled fish, seasoning. Put the milk on to boil. Rub together the Cottolene and flour, then stir them into the boiling milk, stir and cook until a thick paste is formed, add the yelk of egg, parsley, onion juice, mix and add the boiled fish, mix again and add a palatable seasoning of salt and cayenne, turn out to cool. When cold form into cutlets or croquettes. Dip first in beaten egg, then in bread crumbs, and fry in very hot Cottolene. Drain on brown paper and serve very hot with cream sauce.

Fresh Fish Croquettes.

Take the remnants of boiled or fried fish, with all skin and bone removed, or drain the oil from a pound can of salmon, mince it fine, add a half teaspoonful of salt, a dash of cayenne, a teaspoonful of lemon juice. Set a scant half teaspoonful of Cottolene over the fire; when it begins to bubble add a heaped tablespoonful of flour, and stir until the flour is cooked but not brown, then add a gill of cream or milk, and lastly the fish, stirring until all is smooth; if it is too thick, add a little more milk. Make into pear shapes, with a wine glass for mold; moisten with yelk of egg, roll in bread crumbs and fry. Serve with dash of McIlhenny's tobasco sauce.

Oyster Cutlets.

Twelve large oysters boiled for minute in their own liquor. Drain and chop them. Take one gill of the hot liquor, add one ounce of butter and tablespoonful of flour, mix then one teaspoonful of finely chopped parsley, and the yelk of one egg, and the chopped oysters, cook until a thick batter. Turn out and cool and mould in cutlet form. Dip in egg and cracker crumbs and fry like oysters. This quantity will make about five cutlets. Serve with mushroons or green peas, or both.—Mrs. M. V. Joseph.

Cold Fish.

Water, onions, garlic, red pepper. When boiling put in fish and cook till done. Take fish out and strain liquor, then stir in two teaspoonfuls of flour mixed with a little water. Have two yelks of eggs in bowl and parsley, stir hot liquor in, add a lump of butter, pour over fish. Prepare about three hours before serving.—Mrs. J. M. Wilzen, 2164 Highland ave.

a good lump of fresh butter. Brown into it one tablespoonful of flour. Strain water into this, then take all and pour into lemon and sugar, stirring. Put back on stove until thick. Drop in a handful of almonds. Pour over fish and dress with parsley and lemon.—Mrs. Sig Levy, 1801 Sixth avenue.

Salmon Cakes.

One can salmon and gravy, one-half box of Uneeda crackers soaked in warm water, one egg-piece of butter and dash of McIlhenny's tobasco sauce. Make into cakes and fry.—Mrs. A. Kull.

Stewed Fish.

To a seven or eight pound fish cut two or three large onions and hash, one quart of water and one-half pound of butter. When onions are done the fish must be nicely sliced and laid in a fish kettle peppered and salted. Each piece nicely and sprinkle a little ground ginger over it and a little red pepper. Pour the onions that have been cooked and the butter and about a quart more of boiling water, cover and let cook until the fish is done. Then have eight eggs well beaten with one bunch of parsley chopped fine and about three or four teaspoonfuls of flour and the juice of three or four lemons, all well beaten together. Pour over the fish. Shake the kettle well or the eggs will curdle and let it remain on the fire only a minute or so until it thickens. It is better eaten cold with a dash of McIlhenny's tobasco sauce.—Mrs. Moses, Virginia.

Pickled Shad.

Take a large shad and cut into pieces a little larger than an individual portion. Place in an earthen bowl, and cover well in the best vinegar, enough sugar to moderate the vinegar, one onion cut up, whole cloves, spices pepper and bay leaves. Place in oven and allow it to cook five or six hours—until bones are all dissolved. Serve cold. While cooking keep securely covered.—Mrs. Sam Adler.

a layer of dumplings (thinly rolled paste—cut into small squares) and so alternate. Cover the whole with a top crust of thinly rolled paste—press around the edges with a fork—make an opening in the center of top dough, and add plentifully of milk. Bake in slow oven.—Miss Rose Mayer.

Pickled Oysters.

One hundred oysters, handful of salt, one-half cup vinegar, whole cloves, allspice and mace. Stew the oysters in their own liquor until the ends curl, and then put in a colander to drain, then throw in ice water with the salt. Strain the liquor and add the spices and vinegar. Boil the liquor and spices together three minutes. Drain the oysters a second time in the colander, and, when all the salt and water have left, then put them in a stone jar, covering them with the spiced liquor, and they will be ready for use as soon as perfectly cold. Add cayenne pepper to taste, and a dash of McIlhenny's tobasco sauce.

Fried Oysters.

Oysters for frying should be large and plump. Spread them on a towel to drain, and after seasoning them with pepper and salt, roll them in fine dry bread or cracker crumbs. Dip them in beaten egg and again roll in plenty of crumbs. Have Cottolene about four inches deep in the frying kettle, cover the bottom of the frying basket with a single layer of breaded oysters and plunge into the fat. Cook for one minute and a half. Drain and serve immediately. For a dozen and a half of oysters there will be required two eggs, quarter of a teaspoonful of pepper, one level tablespoonful of salt and one pint of crumbs. Use half the salt and pepper to season the oysters and the rest to season the crumbs. If the flavor be liked, two tablespoonfuls of tomato catsup may be mixed with egg. Remember that there are few fried things that require the fat so hot as oysters or that spoil so quickly if allowed to stand after frying. Serve with a few drops of McIlhenny's tobasco sauce.

Scrambled Oysters.

One dozen oysters, chopped, three eggs well beaten, one large spoon butter , one gill sweet milk. Put the butter in a pan, when melted add the oysters and allow it to simmer. Add the eggs and milk and when it comes to a boil, remove and serve on toast or crackers.—Mrs. Benners.

Buttered Lobster.

For this the fresh lobster should be used, or that which is put up in the flat cans. Cook together a tablespoonful of flour and two of butter for a pint of lobster meat. Pour on the bubbling butter and flour, one cup of milk. It will be better if it is half cream. When it is thick and smooth after steady stirring, put in the lobster, cut into small pieces. Cook until it is hot through, season with salt, cayenne pepper, and the juice of a lemon, also a dash of McIlhenny's tobasco sauce, and before taking from the fire add two tablespoonfuls of rich cream. Put into nappies, sprinkle the top of these with fine bread crumbs, and scatter bits of butter thickly over the top. Brown in oven and serve hot with sliced lemon.—Mrs. F. Caheen.

Let them come to boiling point, then drain and return to saucepan, with half pint of cream, a small lump of butter, a little finely minced parsley and salt and pepper to taste. When the mixture comes to a boil, thicken with teaspoonful of corn starch and set on back of range until needed for omelet. Crack into a bowl twelve fresh eggs, season with a pinch of salt and a little white pepper, then beat well until whites and yelks are thoroughly mixed and very light. Place in a large omelet pan two ounces of fresh butter and place on hot range until it crackles, then put in the eggs and stir with fork for two minutes. Let it rest for half a minute, fill with the oysters, fold, place on hot platter and pour over the omelet the hot cream sauce of the oysters. Serve at once.—Mrs. F. Y. Anderson.

Oyster Patties.

Put into a deep saucepan two tablespoonfuls of butter and place on the stove. When the butter begins to bubble add two heaping teaspoonfuls of flour until it becomes a thick paste. Add to this half pint of liquor from one quart of oysters and one pint of milk, then let it boil two minutes. Season with salt, white pepper, McIlhenny's tobasco sauce, chopped parsley. (If desired, add one quart of small oysters that have been drained of all liquor.) Let the sauce boil until edges of oysters curl. In the mean time place the patties on a plate in hot oven, leaving the door open. When the oysters are done fill the patties. This is enough for one dozen patties.—Mrs. Hochstadter.

Spiced Baked Ham.

Wash and skin a fourteen pound ham, make a mixture (about a eacupful) of sugar, ground pepper, cloves, cinnamon, a teaspoonful of mustard, then, with a pointed knife, make many deep incisions in the ham, both top and bottom. Into these incisions put the spice mixture, and rub the whole outside surface with it. Make a very thick batter of flour and water, and cover the ham all over, put in dry pan, bake slowly four hours. Remove flour crust, and allow to cool.—Mrs. T. H. Molton.

Beefsteak and Oysters.

For a steak of from two to three pounds use a quart of oysters, from which all bits of shell have been carefully removed. Broil the steak without salting it, as quickly as possible, placing it close to a very hot fire; as soon as it is brown, season it with salt and pepper, put it on a hot platter, and put over it the oysters without any liquid; lay on the oysters about two tablespoonfuls of butter, cut in half-inch pieces, and put the dish into a very hot oven, until the oysters are done, which will be as soon as their edges begin to curl. How to Cook old Ham.

It is of the first importance to get a three-year-old ham, from Kentucky or Virginia—from some one who understands beyond a question how a ham should be cured. They are hard to find but well worth the effort. Keep the ham under running water one night, the next morning boil it until the skin may be peeled off. Then put it in a ham boiler filled with water and sherry, the proportion half to half. The sherry used may be an inexpensive California brand. Add to the water and sherry several handfuls of timothy hay heads and all chopped fine. Let the ham simmer gently all day, at intervals piercing it with a skewer. When the water has almost boiled away take out the ham, cover it well with dough, bake until the dough cracks and comes off easily. Baste the tops and sides of the ham with sugar water, shed it with cloves, put it in the oven just long enough to let the sugar water dry out; garnish with thin circles of lemon, let it get perfectly cold and then cut in thin delicate slices.—Mrs. James Bowron.

Virginia Brunswick Stew.

For a large family, three gallons of water, two chickens, one pound of good fat bacon, both cut up, cook until the meat leaves the bones. Remove bones and add half a gallon chopped Irish potatoes, one and a half pints of green corn, one pint of butter beans, one quart of tomatoes, peeled and cut. Season with black and red pepper, salt, butter, one teaspoonful of sugar, a few drops of McIlhenny's tobasco sauce.

Hungarian Gulyas.

One pound of juicy beef cut into cubes. Put one tablespoonful of dripping into a sauce pan and place over a good fire. When hot, throw in two finely sliced onions, and stir until the onions are thoroughly heated, then add the meat. When the meat is brown, let it cook slowly until it is tender. Now add two medium sized potaoes cut ino dice and two level teaspoonfuls of salt and cover closely. Do not add water as the meat and onions should form sufficient gravy to

A Luncheon Dish.

A good dish for luncheon is made from cold meat, (lamb or veal preferred) left over from the previous day's dinner. Chop fine and mix with cut up nuts in the proportion of twenty-eight nuts to a pint of meat. Blanch nuts before using. Season with a dash of pepper and half a teaspoon of salt and bind together with a beaten egg. Make into small balls put into a baking dish with a half pint of strained tomatoes poured around them; and then run into the oven for fifteen minutes. It is then ready to serve.—Mrs. Solon Jacobs.

Spaghetti.

Take four pounds of beef and lard it well, with bits of bacon, cover with cold water and let simmer, but not boil for five hours. Remove meat from the stock and let stand until the grease hardens and may be lifted off. Chop five good sized onions and fry them in butter until brown, then pour into this a can of tomatoes, two carrots sliced, pod of red pepper, parsley, bay leaves, dash of McIlhenny's tobasco sauce, and salt. Let this mixture boil hard fifteen minutes, then strain and pour into the beef stock. Put one pound of Italian macaroni into boiling water long enough to soften, then pour off water. Then pour the stock, etc., over the macaroni and put it on the back of the stove and let simmer until ready to serve. A can of mushrooms cut up into a thickened brown sauce made of a portion of the beef stock is a great improvement, but not a necessity. Pour he mushroom sauce over the whole and serve with grated cheese.—Mrs. Solon Jacobs.

Season with salt and pepper and rub through a sieve, stir in two tablespoons of butter, heat until very hot and serve with roast beef instead of mashed pota-

One or two eggs beaten with these ingredients will make nicer pies. The sweet potato can be baked before using it. In this case no water is added; only sufficient milk to moisten the potato. If an egg is used with the baked potato, it must be beaten with half a cupful of milk besides that used to moisten the potato.

French Desert

Six eggs, almost one-half teaspoon salt, teaspoon sugar, take enough flour to make a biscuit dough, divide into eight or ten parts, roll out each part thin and the size of the pan in which it is to be fried. Have ready a filling, which is (1) chopped almonds, raisins, sugar and a little cinnamon; (2) four whites of eggs, beat to a stiff froth; (3) any good preserve. PICKLES AND CATSUP

Green Tomato Pickles

Slice a gallon of unpeeled green tomatoes and six large onions and mix them together. Stir into these a quart of vinegar, a cup of brown sugar, a tablespoonful each of salt, pepper and mustard seed, a half teaspoonful each of ground allspice, and cloves. Stew all until the tomatoes are very tender, put into glass jars and seal.

Cucumber Chow-Chow

Peel ripe or seed cucumbers and measure three quarts, chop three pints of onion and two green peppers. Add one cup of tender nasturtium seed, one tablespoon of black pepper and a few bits of horse radish or one rounding tablespoon of freshly grated root. Add salt, stirring in well enough to make the mixture taste well, then turn into glass jars and cover with cold vinegar. This chowchow will keep indefinitely.

Brandy Peaches

Use white heath, plum or cling peaches, keep a kettle with about a gallon of water and a tablespoon of concentrated lye boiling on the stove, and drop a few peaches at a time into it. The lye should be strong enough not to allow the peaches to remain in it but a few minutes when the skin will rub off by wiping with a coarse towel. Drop the peaches in cold water

before and after wiping off the skin, and if necessary change the water so as to wash all the lye out of them. Let them stand in water until you drop them in the syrup, drying them first on a cloth. Use granulated sugar, pound for pound. Put the sugar on with enough water to dissolve it and let it clear and thicken, then drop a few peaches in at a time, letting them boil until tender. Try them with a broom straw, and if it passes through them drop them in the jars, which have in each half gallon jar one pint of best apple brandy, a few cloves, stick cinnamon and allspice. As the peaches come out of the hot syrup and are dropped into the cold brandy, cover with tops immediately or they will shrivel if exposed to the air When all the peaches are done fill up the jars with the boiling syrup and seal at once. More brandy can be added at any time but stir the syrup first as the brandy is usually at the bottom.—Isoline M. Moses., 510 E. Franklin St., Richmond, Va.

Pickled Peaches

Take four pounds of sugar to one quart of wine vinegar, seven pounds of fruit. Put in the syrup some cinnamon bark, whole cloves and a little mace. Put sugar, vinegar and spices on to boil, skimming continually. When done skimming, drop in the fruit. Let it boil until the fruit is done, then take out with a skimmer, being careful so as not to break the fruit. Put in jar, then let the syrup boil until it becomes thick, then pour it over the fruit. Let it stand several days, lightly covered.—Mrs. I. R. Hochstadler.

Tomato Sauce (Hot)

One peck ripe tomatoes, chopped fine, eight to twelve large onions, chopped fine, mix and add four tablespoonfuls salt or salt to taste, dash of McIlhenny's tobasco sauce, one cup sugar, four cups vinegar, two tablespoonfuls white mustard seed, one tablespoonful each ginger, allspice, cloves, celery seed, two tablespoonfuls horse radish, two tablespoonfuls cayenne, pulverized, mix all well and boil until thick, put in jars while hot and seal. Excellent for meats, etc.—Mrs. R. V. Mobley.

Chili Sauce

Twelve large tomatoes, four ripe or three green peppers, two onions, two tablespoonfuls salt, two sugar, one tablespoon cinnamon, three cups vinegar. eel tomatoes and onions, chop (separately) very fine, add the peppers (chopped) with other ingredients. Boil one hour and a half. Add a dash of McIlhenny's tobasco sauce, bottle and it will keep indefinitely.—Mrs. S. Cullom.

Chopped Pickle

One gallon green tomatoes, one gallon cabbage, one quart onions, one-half green peppers, taking out seed, grind all fine, sprinkle salt over tomatoes, let stand, throw off juice, add to this five tablespoonfuls of mixed mustard, few drops of McIlhenny's tobasco sauce, two tablespoonfuls mace, all ground fine, three ounces tumeric, one ounce celery seed, three pounds sugar, mix well together, cover with good vinegar. Boil slowly until done, put in stone jars.—Mrs. Smith Cullom.

Pickled Peaches

Take four pounds of sugar to one quart wine vinegar and seven pounds of fruit. Put in the syrup some cinnamon bark, whole cloves and mace. Put sugar, vinegar and spices on to boil, skimming all the while, then drop in your fruit, and let boil until done, and then take out and put in jars and let the syrup cook until thick, then pour over the fruit, and let stand lightly covered several days before sealing.—Mrs. Herman Saks.

Hasty Pickle

Quarter about six large cucumbers, three large onions, about a teaspoonful of whole allspice, small piece of alum size of a pea, red pepper to taste, salt one tablespoonful, few drops of McIlhenny's tobasco sauce, fennel (green) to taste, sugar enough to break the acidity of vinegar. Pour enough vinegar to almost cover cucumbers. In boiling they will draw enough juice to cover them. Weight these ingredients with a plate and when peel of cucumbers turn yellow, while boiling, they

should be removed from the stove. Usually ten minutes' boiling suffices.—Mrs. W. O. Strauss.

Piccalily

Chop, rather fine, one peck of green tomatoes, one large head of cabbage, twelve large onions, and twelve sweet peppers. (By chopping together the eyes are not so hurt by the onions.) Sprinkle thickly with salt, and set aside over night. In the morning, squeeze with the hands, rinsing with cold water if too salty. Season with three (more if desired) pounds of light brown sugar, cinnamon bark, whole black pepper, cloves and allspice, then cover the whole with good vinegar, allowing a generous quantity for evaporation in boiling. Boil slowly three to four hours. This will keep indefinitely without sealing.—Mrs. T. H. Molton.

Mustard Pickles

One peck pickles, one-half peck white onions. Wash pickles, cut in round slices with peel one-half inch thick, slice onions and salt both one-half day, then put in bag to drip over night. Drop in one teaspoonful pulverized alum, seven pints vinegar, one-half of five cents tumeric. Dissolve with vinegar and stir into this one-half box of mustard, five cents celery seed, one-half cup of sugar, one teaspoon cayenne pepper, and a dash of McIlhenny's tobasco sauce. Drop pickles in vinegar and stir until boiled. Seal air tight while hot.—Mrs. H. Bernheim.

Tomato Catsup

Select ripe tomatoes, say about one peck, cut the tomatoes in pieces, put on to boil, and boil until soft, then strain and press through a coarse sieve. Return to kettle and add a bag of the following spices: Two tablespoonfuls of salt, one tablespoon black pepper, one tablespoon cayenne pepper, one tablespoon celery seed, two tablespoonfuls ground mustard. Boil at least four hours, stirring constantly for the last hour, and very often while boiling. Add a pint of vinegar and a tablespoonful of sugar just before removing from the fire and put

in a few drops of McIlhenny's tobasco sauce. Bottle while hot and seal.—Mrs. Ellinger.

Pickled Cherries

Five pounds red cherries, pit them and put in enough white wine vinegar to cover them and let stand over night. In the morning strain off vinegar (throw vinegar away as it is not good for any other use) and to a bowl of cherries (any size bowl will do) use a bowl of sugar. Put in a stone jar in layers of cherries and sugar. Stir three times a day for four days, then put in glass cans and seal.—Helen R. Rosenstock, Petersburg, Va.

Cucumber Chili Sauce

Twelve large, but not old, cucumbers, six onions, one ounce celery seed, one cup salt and one quart of vinegar. Grind or chop very fine the cucumbers, without peeling them. Put the cupful of salt over them and let stand three hours. Then drain thoroughly, chop the onions and add the celery seed. Heat the vinegar to the boiling point, pour over the mixture and seal, add a few drops of McIlhenny's tobasco sauce.—New York Herald.

Boil half an hour, stirring steadily, and seal boiling hot. Very nice with beef and veal.—Mrs. R. B. Hamilton.

PRESERVES.

Pickled Watermelon Rinds

Pare off the green outside and the pink inside and slice the white part in rather thick strips. Cut in cubes and steam until tender.

Prepare a sweet sliced pickle, using for every eight pounds of melon one pint of vinegar and three pounds of sugar. Put the sugar and vinegar in a kettle, add an ounce of green ginger cleaned and cut in slices, and two teaspoonfuls of mixed spices —mace, cloves and cinnamon—ground and tied in a small piece of cheese-cloth. Bring to a good boil.

Lay the rinds, which have already been steamed tender, in the syrup and cook for a few moments. Skim out carefully into cans, boil the syrup down until quite thick and pour over the fruit. Seal. This may be used when needed in place of citron for cake or mincemeat by rolling some of the pieces in sugar and drying slowly in the oven.

Jellied Prunes

Wash one pound of dried prunes and let soak over night, then if all the water has been absorbed, add enough more to just cover and cook very gently for two hours. Add one-half cupful of sugar, the juice of half a lemon, and remove the stones when cold. Cover half a package of gelatin with one-half cupful of cold water and let stand until softened, then place over boiling water and stir until dissolved. | Strain into the prunes, pour into a mold and let harden on ice. Serve with cream, either plain or whipped.—Baltimore Sun.

Strawberry Preserves

Pick and weigh berries, then wash them. To every pound of berries use one pound of sugar. Put sugar over berries and let stay over night. Boil one quart at a time for twenty-five minutes, then put up.—Mrs. J. Ellinger.

Strawberry Preserve

To one pound of berries take one pound of sugar (weigh strawberries), then wash and put sugar over them and let remain over night. Boil one quart after another for thirty minutes and then put up.—Mrs. Herman Saks.

Art of Jelly Making.

This annual duty is one which many housekeepers look forward to with dread when the fruit season is nigh. To be sure it takes considerable time and care, but much care might be avoided if only a few important rules were adhered to as regards jelly-making in general. Do not try to make jelly from every kind of fruit juice. The substance in the fruit which forms the jelly is not present in all fruits, so that the fruits which lack pectin, or this jelly forming material, should be combined with such fruits as we know will stiffen into a jelly.

Raspberries, strawberries and cherries need the addition of currants; blackberries, peaches and pears need apples plums or quince. Otherwise what we are ambitious to have turn out as jelly, will prove to be but a thick syrup. Gelatin, of course, is largely used to stiffen fruit juice, but more for such jellies as those prepared for immediate use. However, most of the jellies purchased at the store have been stiffened with gelatin or other compound.

Always use a porcelain or granite utensil for boiling fruit juice in, as metals are apt to destroy, to an extent, the color and flavor of the jelly. For the same reason use wooden spoons for stirring and skimming.

To make clear jelly, use only the perfect fruit. Pick all of it over thoroughly. Place in the kettle and crush it just enough to extract a small quantity of the juice so that it will not burn. Some fruits, however, may have a small quantity of water added for this purpose. Cook it over a slow, steady heat till the fruit is soft, then turn all into a heavy cloth and press out as much of the juice as possible. Then strain through a second fine cloth, using just that which runs through of its own accord, for the first few tumblers as that will be the

clear jelly. Make up the latter third of the juice or whatever amount of juice still remains in the bag separately.

Measure the juice and allow an equal quantity of sugar which should be well heated in the oven before adding to the juice, but not allowed to become at all scorched.

Wipe all fruit for jelly well, or pick over well, but do not wash it. When fruit does not jelly readily, it is usually because it is over-ripe. If care is taken to skim the jelly often during its last heating, it will not be necessary to strain it into the tumblers.

Some precaution should be taken so as not to crack the placed in the glass while pouring the jelly, or the glasses may tumblers in pouring in the hot liquid. A silver spoon may be previously be rolled in hot water and then allowed to stand in the hot water while filling them. Fill each glass full to the brim and allow to solidify in a dry place before covering. In a day or two cover with soft plain writing paper, cut to fit inside the glass and then affix the tin covers, or if preferred, manilla paper may be tied tightly over the tops.

Always keep jelly in a dark, cool and dry place.

The directions for the making of different jellies will be given under each of the following recipes separately.

Green Grape Jelly

Let the grapes simmer on the back of the stove with a little water, then boil half an hour, mash and strain. Allow an equal measure of sugar and juice, but before adding the sugar heat it well and allow the juice to boil twenty minutes. Then stir in the sugar and when dissolved pour into glasses.

Apple Jelly

Wipe the apples, cut them in pieces without peeling or coring, but remove all bruises and imperfect parts. Barely cover them with water and boil over a slow fire till tender, then strain off the juice through a cheese-cloth without pressing. Measure the juice and allow an equal amount of sugar. Put the juice back into the preserving kettle and allow to boil five minutes, then add the heated sugar and stir until it dissolves.

Continue the boiling until a little dropped upon a cold plate will jelly. It will take between twenty and thirty minutes. Turn it into tumblers and when cold, cover.

Plum Jelly

Put the plums, which may be either damsons, red or beach plums, into the kettle with water to cover. Heat slowly and simmer until the plums will mash readily, then turn into flannel jelly bag and drip until the pulp is dry. Boil the juice rapidly twenty minutes, skimming often. Remove it from the fire; measure and return to the fire. As soon as it boils again, add the sugar, cup for cup, and boil until it jellies which will be fifteen or twenty minutes. Pour into tumblers.

Blue Grape Jelly

Use grapes before entirely ripe. Pick over and cover with enough water only to keep from burning. Cook a few minutes and then strain the juice, but do not squeeze. Use equal pint of sugar to each pint of juice. Cook fifteen minutes before putting in the sugar and ten minutes after. Pour into glasses.

Blackberry Jam (Without Seeds) (Original)

Take two gallons of blackberries, wash well, put into a preserve kettle with about two quarts of cold water, let them boil until tender, then strain through a wire sieve, pressing all the pulp of the berry through the sieve with a wooden spoon. Weigh the pulp and to each pound add three-fourths of a pound of sugar. Put back into preserve kettle, take a few pieces of stick cinnamon and cloves and drop it into the kettle. Let this boil until the proper consistency of jam. When cold put it in wide mouthed glass jars. This is excellent as it does away with the objectionable seeds.—Mrs. J. Bandman.

Preserved Peaches

Drop ripe peaches into boiling water and in two minutes the skin will slip off easily. Drop at once into cold water to prevent turning dark. Allow one and a half cups of sugar and three-quarters of a cup of water to each pound of fruit. When

the syrup boils add the fruit, a few at the time and cook until tender. Take out and add more peaches. Place the cooked peaches in jars, and when all are done fill the jars with syrup. If the peaches are large cut them in halves, but leave a few of the stones to give a good flavor to the preserves.
